Address: buner/shalbandi, 19290, Buner, Pakistan (Home)

ABOUT ME

I am a dedicated student currently pursuing a Bachelor's degree in Computer Science at the University of Engineering and Technology Mardan. I specialize in the MERN stack, where I have developed strong skills in MongoDB, Express.js, React, and Node.js. I have created several projects, including a Doctor Appointment System and a personal portfolio website, which showcase my ability to build functional and user-friendly applications. My goal is to secure an internship that allows me to contribute to innovative projects while further enhancing my technical expertise in web development.
